

## DO YOUR TANKERS COMPLY WITH THE LATEST REGULATIONS?

**Be sure to update the documentation and install the devices to get the drinking or non-drinking tanker license.**

ADDC and AADC are implementing new regulations for water tanker transmission issued by the Abu Dhabi Department of Energy (DoE).

Under these regulations, you are required to provide up-to-date documentation and ensure that the following devices are installed:

Tablet

GPS Device

Water level indicator

Water Meter

### Device Installation

ADDC and AADC will supply and install the four devices in the tankers only after the signing of the tanker's equipment rental agreement by both parties.

Scan the QR code to find out more information about the rental agreement, download, sign, and send it to the Tanker Management Center.

After completing this process, the devices must be rented and installed at one of the three installation centres.

<insert QR code>

**You can install these devices only through any of the approved installation centres below:**

#### Al Rahba, Al Rahba TFS

Al Marsa street  
02 416 3636

#### Al Ain City, Neima TFS

Shiab Al Ashkhar area behind Sheikh  
Zayed Cultural Islamic Center  
800 9008

#### Al Dhafra, Madinat zayed TFS

Industrial Area Al Khowair street  
02 884 8666

### Up-to-date Documentation

Please submit all the documents mentioned here to the Tankering Management Centre at the earliest.

	Tanker Owners	Tanker Drivers
1	Copy of commercial license issued by DED (Department of Economic Development)	Emirates ID copy*
2	Copy of valid ownership or registration of the tanker (issued by AD Police Department)	Driving License copy*
3	Emirates ID copy	Training Certificate (Optional)

**\*Must be issued by the Government of Abu Dhabi.**

You can submit documents online simply by scanning the QR code below

**Choose the category that suits you: Tanker owner, Tanker driver, Tanker owner and driver.**

Fill in all the required information with personal data, upload the required documents, then click on "Send". In the case of companies, you can register an account and through it you can register your tankers and drivers.

Kindly book your appointment for installation at one of our authorised centres by calling the Tanker Management Center on **02 416 5112** or emailing **tmc.support@addc.ae** to ADDC or **tmc.support@aadc.ae** to AADC.

Kindly comply as soon as possible as failure to install these devices before the expiry date of ownership of your tankers may result in the suspension or complete cancellation or partial cancellation of any certificate or permit issued to you.
